

360 Degrees of Wisdom

Throughout the centuries, people have attempted to determine unique meanings of each degree of the Zodiac, primarily through intuitive practices. The name of this document is taken from a book, "360° of Wisdom," that discusses these various symbols. The Sabian and Kozminsky symbols given here are two of the more common symbol lists. I hope to be able to include others such as the Charubel and Sephaniel lists when I am able to locate them.

Enjoy!
